All Water Levels are in metres.

Legend:

Normal : when river water level is below WL	
Low Flood : when river water level is at or above WL but below DL	
Moderate Flood : when river water level is at or above DL but below level which is 0.5 m below HFL	
High Flood : when the river water level is within 0.5 m of HFL and below HFL.	
Unprecedented Flood : when the river water level is at or above HFL	

Disclaimer: Forecast is subject to uncertainty due to rainfall forecasts, model parameters, error in measurement and other unknown factors.
